ABOUT GPS

“GPS and Richard Schroeder make a powerful team! They helped us develop and execute a strategy that effected a step change in productivity. It had an immediate impact and drove fundamental change to ensure a sustainability of the program.”

TIMOTHY MCLEVISH, CFO - KRAFT FOODS

WHO WE ARE

An industry leader in operations productivity, supply chain optimization and business turnaround, GPS delivers rapid results sustained by a long-term business strategy. Our team of 100 subject matter experts has achieved breakthrough results in all areas of the business from manufacturing, distribution and procurement to new product development and process design. From our global locations with multilingual capability, we serve a diverse client base from small cap companies to Fortune 50 corporations in various industries including food and consumer products, automotive, chemical and other industrial sectors, energy, healthcare, government services and private equity.

WHAT WE DO

GPS helps its customers realize over 26% net productivity improvement. Our proven model quickly establishes baseline business process capability, exposing losses and identifying performance gaps. Engaging our clients' executive leadership, we then develop an implementation roadmap that begins delivering significant financial results within 90 days and creates a self-funding plan to execute the longer-term business improvement strategy.

GPS doesn't subscribe to the latest management fads but adapts to our clients' culture, whether we are providing interim resources to create momentum or delivering specific tool training and certification to enhance organizational capability. We have been 100 percent successful delivering significant value to our clients. The examples and testimonials on the following pages illustrate our success.

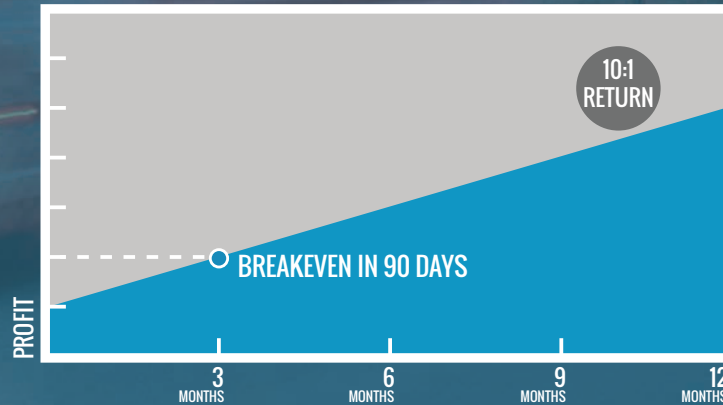

CONSUMER GOODS

Fortune 50 food company adds \$2.6 billion to the bottom line with GPS Operational Excellence® program globally after three years.

WHAT OUR CLIENTS ARE SAYING

GPS helped us achieve breakthrough process improvement in the order-to-ship value stream.
Results were impressive – rapid and sustainable.

JOSE (PEPE) ALONSO, VICE PRESIDENT, FINANCE, P & G LATIN AMERICA

The staff at GPS was instrumental in organizing and developing our process improvement team.
Unlike other consultants, GPS didn't just teach the principles, they taught us how to apply
the principles and made sure we were positioned for sustainability.

JENNIFER FEXIS, FRANCISCAN HOSPITAL FOR CHILDREN, INC.

I first encountered GPS and their capability as the President of OPW and later as CEO of Dover Resources
where they helped us across several of our businesses to achieve breakthrough productivity in our
manufacturing operations. As an operating partner with NEP, I didn't hesitate to call on GPS to help us
turnaround of one our portfolio companies. You can count on GPS to solve your toughest problems.

DAVE ROPP, OPERATING PARTNER, NEP
